

A clear, human clinical experience

A practical guide for using the Koasis identity with clarity, consistency, and care across digital and physical touchpoints.

Your Clinical Oasis

Prepared from the approved Koasis logo and wordmark artwork.

Brand foundation

01 / PURPOSE

**Make clinical care feel
clear, calm, and human.**

Koasis is a welcoming clinical oasis: a place where people can understand what is happening, feel supported, and move forward with confidence.

02 / PERSONALITY

- **CALM** Reduce friction and noise.
- **CARING** Keep the human at the center.
- **CLEAR** Make the next step obvious.
- **CAPABLE** Signal clinical confidence.

03 / VISUAL IDEA

A person, a device, and a spark of progress.

The icon combines a seated human figure with a digital work gesture. The diagonal creates a memorable K-like energy, while the sparkle signals clarity, care, and forward movement.

Logo system

PRIMARY LOCKUP

Use when

The audience needs the full brand name and promise. This is the default for websites, decks, documents, and partner-facing materials.

Icon only

Favicon, app tile, avatar

Horizontal lockup

Default external use

Rule

Do not rebuild the wordmark with a font. The letterforms, speech bubble in the a, dots, stars, spacing, and tagline are part of the artwork.

Clear space and sizing

CLEAR SPACE

0.5x minimum on every side

x = diameter of the circular head in the icon.

ICON SAFE AREA

0.75x minimum

MINIMUM REPRODUCTION

Digital

Icon: 24 px minimum

Full lockup: 240 px minimum

Print

Icon: 8 mm minimum

Full lockup: 60 mm minimum

At smaller sizes, use icon only so the tagline stays legible.

Never scale the wordmark and tagline independently. If the tagline cannot be read, switch to the approved icon-only asset.

Color palette

A focused blue system balances utilitarian trust with digital energy. The logo and system balance utilitarian trust with digital energy. For the logo itself; use the palette below for layouts, UI, and supporting graphics.

Koasis Blue

#0072FB

Primary brand / CTA

Koasis Deep

#005CFC

Accent / emphasis

Koasis Ink

#102A43

Headings / dark UI

Sky Mist

#E7F2FF

Soft panel / hover

Cloud

#F4F9FF

Page background

Slate

#5B6B7A

Body copy / metadata

White

#FFFFFF

Logo field / contrast

RATIO

60% **30%**

blue-led surfaces white / cloud

10%

ink / slate

Use contrast first. The blue should feel intentional, not noisy.

Typography

01 / WORDMARK

Custom locked artwork

The Koasis wordmark is not a typeset name. It includes custom letterforms, spacing, a speech-bubble detail inside the a, and a dedicated tagline. Always place the supplied PNG artwork.

02 / SUPPORTING TYPE

Noto Sans

Modern, open, easy to scan.

Heading / Bold

Body / Regular

0123456789

Aa Bb Cc / Clear clinical communication

RECOMMENDED HIERARCHY

H1

32 / 38 pt

Page titles and primary statements

H2

18 / 24 pt

Section headings and card titles

Body

10.5 / 16 pt

Explanatory copy and UI content

Meta

8 / 12 pt

Labels, captions, file notes

Backgrounds and contrast

Protect recognition by giving the mark a quiet, intentional field.

OK Preferred
White field

OK Preferred
Cloud field

OK Use with care
Tinted field

DO NOT IMPROVISE A REVERSE LOGO

Avoid placing the blue logo on equally saturated blue or busy imagery.

If a dark or photographic background is unavoidable, create an approved reversed master first. Never recolor the supplied artwork with filters, shadows, outlines, or opacity tricks.

Logo misuse

Consistency is a trust signal. Avoid changes that weaken recognition.

Do not stretch
Keep the original aspect ratio.

Do not recolor
Use the approved blue artwork.

Do not rotate
The gesture and K-like angle are fixed.

Do not add effects
No shadow, outline, glow, or bevel.

Do not crop
Keep the full silhouette visible.

Do not rebuild
Do not retype or alter the wordmark.

Application principles

DIGITAL IDENTITY

App / favicon

Use icon-only at small sizes. Keep the mark centered with generous padding.

HEADER / DECK

Website / presentation

Use the full lockup when the audience needs name, promise, and recognition in one glance.

DOCUMENT / PRINT

Letterhead / report

Place the logo in a quiet header or footer, never inside dense body copy.

PLACEMENT CHECKLIST

-  Use the source PNG at original proportions.
-  Keep clear space around the full lockup.
-  Use icon-only below the full-lockup minimum.
-  Check contrast before publishing or printing.

Asset handoff

Use these final files as the approved starting point for product, marketing, clinical documents, and partner materials.

APPROVED ASSETS

Koasis Logo Final.png

512 x 512 px / RGBA / icon only

Koasis Wordmark Final.png

1803 x 522 px / RGBA / icon + wordmark + tagline

koasis-favicon-transparent.png

512 x 512 px / RGBA / favicon export

koasis-logo-wordmark-transparent.png

1803 x 522 px / RGBA / transparent lockup

Your Clinical Oasis

Blue-led. Human-centered.

PRODUCTION NOTES

Digital: keep exports in sRGB with transparency. Print: place the original artwork in the layout and convert only at final production stage if a CMYK workflow requires it. Do not recreate the logo from editable text.
